

Thunderbolt 4 40G Passive Cable

Length: up to 2.3ft (0.7m)

Part# CB-TB0211-S1

All-in-1 high-performance cable: Enabling 40Gbps bandwidth, 8K display, 240W fast charging, and extensive compatibility

- This Thunderbolt 4 certified cable ensures seamless compatibility with Thunderbolt 4 or USB 4 enabled PCs & devices, while also offering backwards compatibility with Thunderbolt 3 and USB-C interfaces
- Supports 40Gbps high-speed bidirectional bandwidth to increase the transfer rates and overall performance
- Supports single 8K or dual 4K@60Hz UHD resolution display via leading Thunderbolt docks or hubs.
***Note: Dual monitor display requires 2 cables**
- Supports the USB Extended Power Range (EPR) with power delivery up to 240W (48V/5A) and compared to the previous 100W charging. Please note that charging capabilities depend on your computer's specifications

Common Applications

- Office, Conference room, Workstation, Monitoring room, Control center, Gaming room, Medical room, Server room, Testing lab, Business trip
