

# 4K120Hz **HDMI Extender** with IR

**HDMI audio format:**  
LPCM 2 / 5.1 / 7.1; DTS 5.1 / 7.1  
Dolby 5.1 / 7.1

Part# CE-H27L11-S1

**Easily extends 4K@120Hz HDMI signals up to 40m via Cat6/7 cabling and IR Bi-directional remote control HDMI device**

- Extends HDMI Audio and Video signals up to 132ft (40m) through a Cat6/7 network cable to a remote HDMI display. Video bandwidth up to 32Gbps
- Supports Ultra HD video resolution up to 4K (3840x2160)@120Hz, HDR 10, HDCP 2.3, YUV 4:4:4, 36-bit deep color for crystal-clear image quality. Compliant with DSC 1.2a
- The EDID slide switch offers STD and TV modes for optimal image quality and flexibility
- Built-in Bi-directional IR pass-through supports full frequency IR signal from 20KHz to 60 KHz
- Plug-n-Play operation with no software or driver installation required
- Reset button for re-detection of display if the display is not detected or have a splash screen, flicker, noise, or color distortion
- Durable metal housing protects internal PCBA from damage, enhances heat dissipation, and minimized EMI/RFI noise interference for optimal performance.

## Common Applications

- Live game streaming, Home theater, TV Broadcast, Audio/Video conference room, Show room, Media room, Classroom, Restaurant, Seminar, Hotel lobby, Reception room
