SIIG®
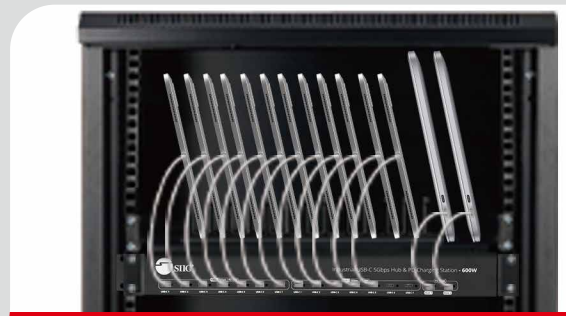

16-port Industrial 600W USB-C PD **Charging Station** with USB Hub

600W Charging Station:
- Input: 2x USB-C, PD 100W
- Output: 14x USB-C, PD 30W

Part# ID-US0B11-S2

Industrial-Grade 16-Port USB-C Power Station for reliable power and file sharing with overheat protection

USB-A to USB-C adapter cable included

- Easily charge up to 16 USB-C devices simultaneously, including iPhones, iPads, tables, smartphones. Supports 2 ports with 100W and 14 ports with charging up to 30W.
  Note: Use a USB-A to USB-C adapter for ports 1 to 7 for simultaneously charging and data sync on iPhone 15 or iPad Pro/Mini.
- Utilize the 14 USB-C data ports via one system or two via dual USB-C input ports. Supports data transfer up to 5Gbps and Power Delivery (PD) charging up to 100W
- Compatible with PD 2.0 and 3.0 for 5V/3A, 9V/3A, and 12V/2.5A charging specifications
- Built-in 24V/600W Meanwell power adapter with UL certification ensures safe charging
- Power switch with LED indicator conserves energy, while smart fans adjust based on temperature
- Multiple safety features, including Over-Current, Over-Voltage, Short-Circuit, and Over-Temperature protection, ensure safe device connection
- Full metal housing designed for efficient heat dissipation and rack-mountable in a standard 19-inch rack

Common Applications

- Workstation, Classroom, Service center, Retail store, Media center, Library, Testing lab, Airport, Warehouse, Healthcare
